Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: claims 1-55,59-61,65,67,69 and 73-75 are considered allowable over the prior art, as the closest prior art identified in the Information Disclosure Statements filed, EP0747877, measures the speed of an operation (page 3 lines 30-32), whereas the claimed invention recites detecting a load of computation imposed on the processor. The speed of an operation on a processor does not necessarily read or correlate to the load of the operation imposed on the processor. Many other factors correlate to how fast an operation is performed by a processor.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
